

COFFEE SPECIFICATION

Maisies

Hand roasted in the West Country is a selection of coffee blends and single origin coffees. Each variety is ethically sourced before being carefully roasted to create the most delicious coffees, while helping us make positive changes in the world. Our range of coffees has evolved to meet the needs of our discerning customers, and the increasingly sophisticated tastes within the coffee drinking public.

TASTE NOTES

Maisies is a blend that delivers taste in abundance. A traditional and balanced coffee, combining sweet notes of milk chocolate, caramel and hazelnut with a hint of fruit. Maisies shines especially well in cappuccinos and lattes but is just as good as an espresso.
